

Description

SunTek's Carbon range provides superior quality and performance. The proprietary construction utilises unique and innovative Carbon technology and the non-reflective black finish will not fade.

The range also gives great solar performance with advanced UV protection and there are no metal layers so no interference with mobiles, radios and sat-navs.

Lifetime manufacturer's warranty that includes fading.

UK regulations stipulate that tint should not be applied to the front driver, front passenger and front windscreen if the car is to remain road legal. Please check the legal requirements for your country.

Available from stock in 762mm (30 inch) and 1524mm (60 inch).

Product	% Visible Light Transmission	% Total Solar Energy Rejection	% Visible Light Reflectance	% UV Rejection	Thickness (mils)
SunTek Carbon 70	70	28	5	99	1.5
SunTek Carbon 55	60	32	5	99	1.5
SunTek Carbon 45	45	40	5	99	1.5
SunTek Carbon 35	35	42	5	99	1.5
